Description du projet

Elements de concurrences

```java
public Connexion(Socket client_soc, Session session){
    this.client = client_soc;
    this.session = session;
    try {
        in = new BufferedReader(new
InputStreamReader(client.getInputStream()));
        out = new PrintStream(client.getOutputStream());
    }catch (IOException e){
        try {client.close();} catch (IOException e1){}
        System.err.println(e.getMessage());
```

```
        return;
    }
}
```

```python
try:
    data = self.socket.recv(8192, socket.MSG_DONTWAIT)
except BlockingIOError: # Nothing to read
    return

commands = data.decode().split("\n")
commands = [cmd.split("/") for cmd in commands]
```
